

Appl. No. 10/068,759  
Amdt. dated March 21, 2006  
Reply to Office Action of February 10, 2006

PATENT

**REMARKS/ARGUMENTS**

This Amendment is responsive to the Office Action mailed on February 10, 2006. Entry of this Amendment is requested.

In this Amendment, claims 1-6, 8-13, 15-20, and 24-34 are canceled, claim 41 is amended so that it is in independent form, and the dependencies of claims 42-43 are changed so that they depend from claim 41.

At page 2 of the Office Action, the Examiner indicates that claim 41 would be allowable if written into independent form. The Examiner is thanked for this indication of allowable subject matter. As suggested by the Examiner, claim 41 is amended so that it is in independent form, and dependent claims 42 and 43 are amended so that they depend from allowable claim 41. Accordingly, claims 41-43 should be in condition for allowance.

At page 2 of the Office Action, claims "1-6, 8-13, 15-20, 24-43, and 42-43" are rejected as obvious in view of IRC FAQ and Windows 98. Applicants presume that "24-43" was intended to be "24-34" since claims 35-40 were previously canceled and claim 41 was indicated as having allowable subject matter.

This rejection is traversed. However, to expedite the prosecution, the rejected claims are canceled. Applicants reserve the right to pursue broader and/or different claims in a continuation application.
